oXya is a leading provider of managed services and cloud solutions for SAP systems. oXya operates by core values that highlight technical mastery and innovative services for the benefit of its customers.

## Basic Facts:

- SAP Managed Services customers: 335
- SAP customers' projects: > 1,000
- oXya's full-time SAP experts worldwide: > 700
- Worldwide data centers (primary and DR)

**Key Differentiator:** Unique delivery model resulting in over 98% client satisfactory.

For every customer:

- A dedicated team
- Multi-competencies
- Located on one single oXya site
- Run & Projects Management
- Technical & Business context knowledge
- Fulfilling commitments

## Job opportunities:

Becoming an expert SAP technical consultant is an excellent career move.

Here are some reasons to work for oXya: our training policy, our strong and consistent growth in the international SAP market, the intellectual challenge of the work itself.

Keeping up with the rapid expansion of our business, we are looking for highly motivated individuals who want to join us in our delivery organization, to:

- Maintain the operating condition of our customers at an optimal level
- Research and develop solutions for specific customer requests
- Develop expertise on specific technologies and procedures
- Review complex problem situations and identify preventive measures/improvements to processes, procedures or tools, and implement these as required
- Maintain up-to-date knowledge of all operational security and emergency procedures
- Participate in upgrades and migration projects
- ...

If you have a strong interest in the field of information technology and more specific in cloud based system platforms; if you have a passionate and a positive attitude, we would like to hear from you.
